

## VICE CHAIRMAN VOWS STRONG SUPPORT TO EDUCATE MORE PROFESSIONALS IN DIGITAL FINANCE

The FSC, the Seoul Metropolitan Government and the Korea Advanced Institute of Science and Technology (KAIST) signed a memorandum of understanding for launching digital finance educational programs to help cultivate more experts in the field on June 5.

Vice Chairman Sohn Byungdoo delivered congratulatory remarks at the MOU signing event and vowed to provide strong support to help educate more professionals equipped with the knowledge and expertise on the latest trends and technologies in digital finance.

Vice Chairman Sohn stated that the COVID-19 has brought about more demand for 'untact' and 'officeless' services in the financial industry as well as in our daily lives, and emphasized on the importance of digital transformation and educating more talented professionals to make that happen.

The MBA program in digital finance and non-degree professional programs will commence in September and August, respectively.
